

Business manager and future CEO to TurboIon

Turbolon, a startup business focused on thin film deposition and rely on a revolutionary product within the area of High Power Impulse Magnetron Sputtering (HIPIMS).

Torbolon is looking to reinforce the team to accelerate their go-to-market by starting the verification of product: novel HIPIMS power supply on the basis of recently patented Multichannel HIPIMS Technology. The founders of the company will continue to have active roles within the development area and therefor aim to find a sales-driven and business oriented person to take lead in business planning and customer relations.

Torbolon is at the very beginning of its journey and the market validation is highly needed at this point. Your job will be to take charge in the verification by meeting with potential stakeholders to identify the need and the next step for the company.

About the position

Eventually this position will develop into a CEO or similar and the possibilities to affect the company's future business model and aim, will be strong already at this stage.

There are also possibilities to acquire shares in the company at an early stage. The company's early stage requires this to be a matching and not a recruitment, meaning than no salary will be paid out until financial means are secured. You will also need to take part in the investment raising process eventually.

Turbolon is open to both full-time and part-time hires. This is concluded in a meeting between the candidate and the company.

Future

The company is based in Linköping and strive to be appointed at LEAD Business Incubator within a short period of time. This aligns also with the market verification as that is an important part of the LEAD process.

You can learn more about the company and the product at www.turboion.eu and you send your application of interest to matchning@lead.se and mark your

application with "Turbolon" For further questions, please turn directly to Oleksiy Vozniy on e-mail: vozniy@turboion.eu
